The item for the improvement of Deep Freek at the entrance of the Dismal kwamp canal, part of the inland water oute, was stricken out. For this the Norfolk people are altogether to blame. Benator Martin says he was not addised of the matter and no information n regard to it was placed in his hands.

CAPE LOOKOUT HARBOR.
Senator Pritchard's amendment to appropriate 200,000 for a harbor of refuge at Lookout just south of Hatteras, was not adopted in lieu thereof an appropriation of \$5,000 was given and the appointment of a board to investigate the matter provided for. At present there is no deef water refuge for ships between cape Henry and the Gulf of Mexico. Within the past nine years property to the value of \$2,000,000 has been destroyed off Cape Lookout, not including the off Cape Lookout, not including the enormous less of human life. JAMES RIVER LIGHTS.

Representative Wise has succeeded in naving hiserted in the Sundry Civil Appropriation bill an item to provide for lost lights on James river. The Old Dominion and Clyde lines have been keeping the river lighted at their own expense for many years and have made speated efforts to secure action by Congress. The commercial bodies of Nortolk have also endeavored to induce similar action without avail. Dr. Wise recently introduced bills to provide seven lighted buoys on James river, at Bailey's Preck Flats, Harrison's Bar. Glover's Bluff. Epps Island Shoals, Goose Hill Shoals, Hog Island and Dancing Point. The bills were introduced at the suggestion of Chairman Hepburn of the Interstate Commerce Committee, but later

mittee, Thaddeus M. Mahon, of Pennsylvania, to-day introduced a bill very similar to the Fairbanks bill, with the similar to the Pairbanks bill, with the addition of a paragraph for the pay-ment of certain railroad claims for haul-ing troops and supplies. That he is so favorably inclined to a measure of this kind brightens the prospects of the pass-age of a measure of some kind which will include a provision by which Vir-ginia and the Carolinas will get their

girla and the Carolinas will get their money refunded.

TO PAY SPAIN.

Representative Cannon, chairman of the House Appropriations Committee, to-day introduced a bill to appropriate \$20,000,000 to extry out the provisions of the treaty with Spain. The bill was brief and was substantially as stated above.

Representative Gillett, of Massachusetta introduced a bill to appropriate the same amount for the purpose named with the provision that it should become available when the treaty is ratified. This is followed by a declaration that it is not the purpose of this country to permanently annex the Philippines, but to give them a government, and, later,

Peculiarities of the Filipinos. The Filipino is artistic and his cloti-a clean-two tremendous strides tow everlization. The men do cover work wood, silver, and brass. Their old war knives are highly embelished. Their pottery is often picturesque, and the lothing of the women, made of the in digenous fibre that abounds throughout the islands, is picturesque, and has faunty, attractive style, which their siraight forms and exposed shoulder cary off well. The fibre is often wove as finely as silk, and some of the draw work of the Filipino lace-makers is mos exquisite and expensive. I have see single handkerchlefs which could not be purchased under \$200. The Filipinos lov jewelry, and some of the crude setting contain magnificent pearls, found alon the shores of the islands. The women as a class, are attractive—many are reall pretty. While eschewing shors, gloves and hats, they eften wear dresses of the linest texture, beautifully embroidered. and hais, they often wear dresses of the finest texture, beautifully embroidered, and made with a flowing train. Both sexes love music, and the Filipino music is not the wild banging of tom-toms and the beating of cymbals and drums; nor is it the squeak of the two-stringed violin and the pounding of sticks attune as with the Chinese and Japanese; but it has melody and air, for the Tagai plays all the instruments of the European, and outplays him on many. Aguinaldo's band of sixty pieces is one of the finest on the island.—Edwin Wildman's Mantla Letter to Leslie's Weekly.

Amusements in Manila.

Amusements in Manita.

In Manita I visited the Filipino theatres; the actors, management, and audience were natives. An opera was in progress, "The Murdered King," The scenes were clever imitations of European scene-makers, and the costumes of the actors might grace their betters. A dash of comedy enlivened such parts as the death-scene and the funeral, and the comedy lead had the house from start to finish. The hundreds of natives present were hugely entertained by the Tagal jokes and properly impressed with the work of the heavy tragedian. I have seen worse plays with Seabrooke in the title role. The Filipino circus is another popular resort. If an enterprising American manager could transport the aggregation to Macison Square Garden, standing-room only would be the order and not the exception. Not because the Filipinos could out firstum Barnum, but because the native ralent is of a clever order and the entertainment is unique. Tumblers, wrestlers, jugglers, contortionists, and clowns do their acts creditably and salaam off the ring in real efects style.
